ALLEN WOODS ASSOCIATES, INC.

Allen Woods Announces Partnership With Fluid Dynamics

Our company increasingly provides cleaning products, marking inks, and other solutions to a diverse range of manufacturing settings, so we're pleased to announce our distributorship for Fluid Dynamics.

Fluid Dynamics is headquartered in Farmington, IL and is a leading manufacturer of metalworking fluids for a wide range of industries. They specialize in lubricants, heat transfer fluids, coolants, compressor oil, and other products.

Their product offering is as follows:

- NUSOL Machining Oils
- Dynachem Metalworking Fluids
- Duraloc Lubricating Grease
- Paratherm Heat Transfer Fluid
- CPI Air Compressor Lubricants
- Dynachem Cleaners and Rust Preventatives
- Ucon Polymer Quenchants

Allen Woods & Associates plans to offer these products not only to our PCB and industrial customers, but marketing to the metalworking and machining industries is a major focus. We look forward to working with Fluid Dynamics President Tim Little and the rest of their team.
